COURSEWORK

GRADUATE

- Data Structures
- Object Oriented Programming
- Design and Analysis of Algorithm.

EXPERIENCE

IBM | SOFTWARE DEVELOPMENT INTERN

- Completed a 2-month internship focused on full-stack web development using modern frontend and backend technologies.
- Gained hands-on experience in HTML, CSS, JavaScript, React JS, Angular JS, and Node JS for building responsive and dynamic web applications.
- Developed a Learning Management System (LMS) as a capstone project to manage courses, users, and learning content efficiently.
- Improved understanding of component-based architecture, RESTful APIs, and client-server communication.

DVEIN PVT. LTD | FULL STACK JAVA DEVELOPER INTERN

- Worked on full-stack web application development using Java, gaining hands-on experience in backend logic and application flow.
- Designed responsive frontend interfaces using HTML, CSS, and JavaScript.
- Implemented database integration and connected frontend and backend components for smooth data handling.

PROJECT

HEALTHCARE DIAGNOSTICS AND TREATMENT SYSTEM

- Developed a healthcare application to assist in disease diagnosis and treatment recommendations based on patient symptoms and medical data.
- Improved healthcare decision support by streamlining patient data management and diagnostic workflows.

LEARNING MANAGEMENT SYSTEM(LMS)

- Designed and developed a web-based LMS to manage courses, users, and learning content efficiently.
- Implemented features for user interaction, course access, and content delivery using modern web technologies.
